# Introduction

- Incorporate these principles into life to experience success in every endeavor.
- Success = *Continued expansion of happiness and progressive realization of worthy goals.*
- A spiritual approach is needed to experience success and affluence... not just physical.
- We must nurture seeds of divinity within us – **We are gods and goddesses in embryo!**
- Success includes:
  - *Good health*
  - *Energy*
  - *Enthusiasm*
  - *Fulfilling relationships*
  - *Creative freedom*
  - *Emotional stability*
  - *Psychological stability*
  - *Sense of well-being*
  - *Peace of mind*

# Law of Pure Potentiality

- We are *pure consciousness* – infinite creativity and unbounded possibilities.
- There is no separation of one and their spirit.
- The more you experience your true Self, the closer you are to the field of *pure potentiality*.
- The “experience of self” is the spirit.
  - Absence of fear
  - No compulsion to control
  - No struggle of approval
  - Unfearful for any challenge
  - Respect for all people
  - Feel beneath no one

# Law of Giving

- All things in universe are in motion.
- When circulation stops – death results.
  - Blood must circulate
  - Money must circulate
  - Giving and receiving must circulate
- Give that which you desire to receive!
  - Sincere intent

# Law of Karma (“Cause and Effect”)

- Karma = *the action and the consequence of the action; the cause and the effect simultaneously.*
- One will reap what they sow.
  - If you want happiness... sow seeds of happiness
- Make choices that create peace and happiness.
  - Learn to listen to *sensation* of comfort or discomfort to know what choices you are making.
- The heart always knows the correct choice.

# Law of Least Effort

- Nature's intelligence functions with effortless ease.
- Principle of harmony and love.
- The occurrence of a "miracle" is the *Law of Least Effort* in expression.
- Least Effort takes effect when actions are motivated by love.
  - Energy is wasted with resistance
  - Energy multiplies and regenerates with love
- "...most of our energy goes into upholding our importance... If we were capable of losing some of that importance, two extraordinary things would happen to us. One, we would free our energy from trying to maintain the illusory idea of our grandeur; and two, we would provide ourselves with enough energy to ... catch a glimpse of the actual grandeur of the universe."

- The Art of Dreaming

# Law of Intention and Desire

- Energy and Information exist everywhere in nature.
- Energy and Information are influenced by *Intention and Desire*.
- We experience Energy and Information in the form of:
  - Thoughts
  - Emotions
  - Desires
  - Memories
  - Beliefs
  - Feelings
- You are not separate from the universe; you are an integral part. The universe is within you. You are inseparably connected
- Your intent must be for the benefit of mankind.

# Law of Detachment

- You cannot be attached to your intention.
  - Detachment is based on *unquestioning belief* in the power of your true Self.
  - Attachment is based on *fear* and *insecurity*
- There are **infinite** paths from *Point A* to *Point B*.
  - Detachment means you are open to possibilities
  - Not forcing solutions to problems
- Every problem is a *seed of opportunity*.

# Law of Dharma (“Purpose in Life”)

- Everyone has a unique talent and a unique way of expressing it.
- Find the reason you are here.
- Ask yourself how you can serve humanity.
- Your focus in life is ***what you are here to give!***

# Application of Principles

- Applying these powerful principles enables one to attain self-mastery.
- These laws make living worthwhile.
- You can manifest anything you want – affluence, happiness, money, success.
